NSDC International was established to harness India's potential as the **Global Skill Capital**, aligning with the Ministry of Skill Development and Entrepreneurship's focus on skill exports. By facilitating efficient recruitment for international work mobility, it offers reputable foreign employers a smooth hiring process, while providing India's ambitious youth with lucrative opportunities for international employment.

NSDC International focuses on three major paradigms:

Knowledge Advisory

Shaping Global Skill Ecosystems

NSDC International facilitates impactful ministry-level discussions, comprehensively understanding the workforce needs of destination countries.

In a world characterized by demographic shifts, India stands at the crossroads of a transformative opportunity. With over 54% of our population below the age of 25 and a staggering 62% within the working age group, India's youthful energy is a wellspring of potential waiting to be harnessed. Paradoxically, many developed nations are grappling with the challenges posed by labour shortages, putting a brake on their economic growth.

This juncture presents India with a pivotal moment to emerge as the Skill Capital of the World.
